

HALSTED & WARD

BEAUTIFULLY BESPOKE PAINTED DOORS

Introducing our premium range ...

Beautifully bespoke painted panels and doors. These exceptional products are manufactured in house and are so beautifully finished that we're proud to put our names to them.

As a family business, Basically Trade is completely committed to quality and we went above and beyond in bringing this range to fruition. Over a year of research and development, examining and comparing countless samples, continuous testing and re-testing of materials and finishes until we finally arrived at the perfect combination of product and paint quality needed for such a flawless finish.

We've built up a large in-house stock of the highest quality 22mm Fibralac MDF so we have complete control over quality and lead times on the Halsted & Ward range. We've also spent more than a year finding the perfect paint company – a family-run firm who are (almost) as excited about the new Halsted & Ward range as we are.

The unique made to measure range is available in absolutely any colour and sheen level in the following styles:

ONE PIECE SHAKERS *(2 or 4 panel and choice of rail widths)*

J PULL

FLAT SLAB

PANELS

All manufactured with guaranteed quality, and completed using the highest quality PU paints in a range of sheen finishes from MATT to GLOSS.
